SUJAN BASNET

BS IN INFORMATION TECHNOLOGY

PROFILE

I am a software developer with 2 years of experience in C++, Java, and data analysis. I am
skilled in all stages of the Software Development Life Cycle and Agile methodologies. I have
expertise in Java frameworks like Spring, front-end technologies, and RESTful web services. I
I am experienced in database management with MySQL and test-driven development (TDD). I
I am currently pursuing a master's in information technology management and planning to
obtain a Google Data Analyst certification to enhance my skills and contribute to impactful
projects.
